SUMMARY

Recent graduate with a Bachelor of Technology in Computer Science Engineering, equipped with internship experience as an iOS developer. Proficient in a diverse range of technical skills, including programming languages, web technologies, and mobile app development tools. Possesses essential non-technical skills such as adaptability, continuous learning, effective time management, teamwork, and emotional intelligence. Eager to contribute and grow as a software developer in a dynamic professional environment.

EXPERIENCE

Software Intern

Peoplelink Unified Communication   **July 2022 – April 2023, Hyderabad**

· I served as an intern specializing in iOS development.

· Collaborated seamlessly within a team, actively contributing to the technical design and execution of the application.

· Effectively integrated APIs across various modules to enhance overall app functionality.

· Introduced new features, elevating the user experience and expanding app capabilities.

· Played a crucial role in enhancing product quality through thorough code reviews and optimization techniques.

· Collaborated closely with the QA team to identify and resolve bugs and other issues, ensuring a seamless and robust application.

PROJECTS

Inventory Control

https://github.com/shreyash170/Inventory-Control

· Developed Inventory Control, a Windows-based application designed for comprehensive tracking and management of items throughout the supply chain.

· Implemented features encompassing product management, facilitating efficient organization and oversight.

· Integrated a streamlined sales order system within the application for seamless transaction management.

· Included customer details management for comprehensive and organized customer information tracking.

Resume Builder

· It is an application that simplifies the task of creating a resume for individuals.

· The system is flexible and reduces the need to think and design an appropriate resume according to qualifications.

· Streamlines the resume-building process.
